Company

Ortiva Wireless offers the industry's only commercial solution for proactive management of mobile video, allowing mobile network operators to dramatically improve control, quality, and efficiency of rich media content delivery. Founded in 2004, Ortiva is privately funded by leading venture capital firms Comcast Interactive Capital, Artiman Ventures, Mission Ventures, and Avalon Ventures.

Solutions

Ortiva's Media Shaper technology extends service reach, increases network efficiency, and improves video coverage density for mobile operators, while providing the best possible video quality to viewers over hostile and fluctuating network conditions.

Products

Ortiva licenses its Media Streamer and Media Proxy video optimization platforms to Mobile Network Operators.

Customers

Ortiva's customers include tier 1 Mobile Network Operators.
